

Invitation to Leadership part II

God is inviting us to be an influence in the world

Getting you into convergence

■ Getting you into a state of Convergence Part II, an add on by Zbob to the series “*The Power of Convergence*”. This is a collection of tidbits, bite size of understandings, packaging into a coherent image of the Power of Convergence Series. This collection of tidbits will give the understanding you need of the system, the mechanism that is running the world. In a nutshell; this is a comprehensive understanding of the dynamics that shape human existence, the workings of the system of things that is running the world, an understanding of the different worlds we have within our world, the different classifications of sub-world, different layers of human existence, the capacity for people to join as a collective to create the kind of world they want to live.

[First Class World, [Better Living World](#)]

The system and the devil are one?

■ *The devil is similar to a disease that humanity caught, that brought separation into the world.* It is through separation that the devil takes control over humanity. The devil is the spirit of separation; he got access to our world when the original human family gave him access. They partake in the fruit of separation. This single act has caused a misalignment of the human body with his spirit. This is the cause for death, the cause for the spirit of God to depart from man and takes away the glory that covers him.

Jesus is the antidote?

■ *The devil is turning you into fuel for his consumption, to maintain his system of things that is running the world.* Every time you are in violation of the law of God; you give the devil the legal rights to use you as fuel for his system of things that is running the world. The only way not to be part of the system of things that is running the world, is to follow what Jesus tells you. If you consume the body of Jesus as He

wants you to, meaning emulating Him, pattern your life after Him, you will become unpalatable for the devil to consume. If you apply the precepts of His teachings in your life as a lifestyle; you will increase your cognitive ability, your intuitive capacity, making you aware of the subtle changes that are happening around you. If you are not cognizant of the changes around you; you will be left behind, in the darkness of this world, under the influence of the devil. You will not be in the light of God, current with the reality of the world. If you do what Jesus required of you, meaning deny the self and embrace your humanity, take up your cross; you are denying the process of separation and division of the devil and denying him a platform for expression in the world.

The seed of greatness

• *God places the seed of greatness inside of you, the seed of perfection, which seed must develop as God intended to be.* When the seed of greatness God places inside of you stops developing; it automatically enters into a state of enmity with God, aligning with the devil. This is what evil is; it is resistance to the will of God. When you are no longer fulfilling the will of God for whatever reason; you become the opposition, the enemy. God is always working in Christ to free you from the influence of the devil, helping you move forward.

Working with God

• *God is busy working with us and through us to take the world back from the devil.* This is what Christ is; it God working with man and through man, taken the world back from the devil. Jesus made that possible; this is why He is the Christ. He made it possible for the Holy Spirit of God to work in the flesh with man. This is what the Power of Convergence does; it helps you discover your gifts and talents, helping you align your passion with your gifts and talents, what God calls you to do in the earth. It teaches you how to defer your ego to God so that he can help you succeed in your assignment. There is a devil standing in your way; he is the enemy of your soul denying you access to the abundance of life Without God; you will not make it to success.

God instills moral responsibility

▪*Moral responsibility is God guiding our every steps.* Without Moral Responsibility, corruption will keep us into a perpetual state of poverty. This is what the devil wants. He wants to keep us under his grip and through greed and corruption he is doing that. The Under-developing World will remain the way it is, because of corruption. A deliberate effort has to be made, people must become mindful that greed and excess are instruments in the hands of the devil, denying people their possibility in life. The only sure way to instill Moral Responsibility in people is to help them discover the gifts and talents that God gave them, helping them discover the relationship between their gifts and the passion that God puts in their hearts. By helping them discover their calling, what God assigned them to do in the earth; they are willing to work with God and let Him guide them. This is the sure way to establish Moral Responsibility in People.

The measure of life

Abundance is the measure of life. Life is measured in abundance and Jesus came to give us access to the abundance of life. The human soul is measured in the quality of life we live. If the life that we live is not worthy to glorify God; it belongs to the devil This is why the devil is robbing you of your possibility in life; he is after your soul, There is a certain measure of righteousness that it requires for God to give you access to His creative power, the power to create first class world, [Better Living World](#) to live. Jesus is that measure; He is the standard that God set for humanity. We must measure our lives by Him. He is the pattern for us to follow. He came to give you greater access to life, access to the abundance of life.

Life interconnected

▪*Everything is interconnected, intertwined with each other.* The world is complex, intricate, everything is interconnected; this I why we cannot easily pin down the cause, the reason for why things are the way they are. The world is called the darkness of this world for that reason; you cannot say here is the one cause. You must get to the source, the roots.

There are only two choices in life, either a choice for God or a choice without God. To be with God is to choose life and to be without God is a choice for death. There are only two choice in life; either a choice for God or life or a choice without God or for death. Where God is not, the devil begins, where God is not, there is no light, but darkness.

The Dynamics of life

There are four dynamics that shaped human existence. They become the driving forces in our lives. The way we assert our identity in the world, resort differences to assert ourselves are driven by these two dynamics, Attainment and Negation. They become the forces that are pushing humanity forward and the forces that are restraining humanity backward, they are the reason for acceleration or stagnation in society. The other two dynamics affect our perception. When human beings stop developing socially and spiritually, when they reach a plateau or death end in their stages of development; they enter into a state of enmity with God; they become the opposition. They either perceive change as a threat to their existence or feeling too important to change. They become the enemy by default. We have a couple infamous people that represent a plateau and a dead end in the stages of development of the seed of greatness that God places inside of us. Ben laden represents a dead end in the stage of development of the seed of greatness inside of us, he sees change as an existential; threat. And Hitler represents a plateau in the development of the seed of greatness inside of us. He feels too important and wants to make the world into his own image, superior she is.

Layers of human existence

When we missed the points of engagement when God is dispensing awareness, we also loose the capacity to deal with the reality of the world, the capacity to create first class world, Better Living World to live. This is why we have different layers of human existence, people don't have the ability to deal with the reality of the world. They cannot sustain the reality of the present. World of people are formed, different layers of human existence exist in our world as Tribal World, Third

World, Emerging World and Industrial world because of people capacity to create the kind of world they want to live.

What you are looking for?

• Rather you are a Muslim, Christian, Buddhist, Hindu or Atheist; you are looking to understand the forces that affect you. Regardless of your faith, your beliefs system, your country of origin, the more you are familiar with the forces that affect you, the more fluid and flexible you become. The easier it is for you to adjust to the changes of the world around you.

The Future

If you don't care now about the world, what is happening in it; you will. The changes that are happening around the world will affect you and you will be forced to pay attention. They will imposed on you, and you will have to look at them, pay attention

Lifestyle

Increase your awareness, sharpen your perception, apply the [precepts](#) that guarantee you an increase in your cognitive ability, an increase in your intuitive capacity, [quicken](#) you, giving you the capacity to perceive the subtle changes that are happening around you. Hence you start applying those precepts in your daily life; they become part of your [lifestyle](#). It is all in the life that you live, rather that life is in harmony with the principles, the law and order of the universe.

The Precepts

- Do unto others as you would like them do unto you; that is to love others as you love yourself, forgive others as you would like to be forgiven, etc.
- Deny the self: we must deny the process by which we arrive at our self-identity; that is we negate others in order to affirm ourselves. This is the way of the devil; it is us consuming the fruit

of the knowledge of good and evil, it is us separating ourselves from God and our fellow human beings. "***If a man wants to follow Me, let him first deny himself.***"

- We must embrace our humanity; that is we must accept the short comings and weaknesses of our fellow human beings; that is we must take up our cross. "***If a man wants to follow Me; let him take up his cross and follow Me.***"
- Turn the other cheek; that is we must look for **alternatives** to resolve our differences; we must avoid head on collisions to resolve our conflicts. These few precepts when applied to our daily lives become our lifestyle. This life style guarantees to increase our spiritual awareness, quicken our cognitive ability so that we can perceive the reality of this world, solve our problems, and overcome obstacles out of our paths.

The requirements

- If you want to expand your world, increase your understanding, you must put yourself aside and embrace the larger picture. If you do; you will deny the system that is running the world having power over you and make yourself ready for increase. Your ego is standing in the way; you must first deny the process that separate you and set you apart from the rest.

Universal

- There is an order, a harmony that run the Universe; the rules, the principles that make that order possible will not change. They are also translated to you; this is what the Buddha, Krishna, and Jesus did. They make the Universe personal to you. You can be a savage living in the jungle of Amazon or in Africa; your survival depends on understanding the principles, the rules that governed the Universe. I think that it is what the **Part II** of the **Power of Convergence** will do for you; take the impersonal and makes it personal
