

Invitation to Leadership

God is inviting us to be an influence in the world

Getting you into convergence Part I

■ Getting you into a state of convergence from the series “*The Power of Convergence*”, by Dr. Lance Wallnau and Dr. Mark Chironna, commented and illustrated by Zbob. This is break down by Zbob of the Power of Convergence Series in tidbits, in bit size, making it easy for you to understand. This part I of the Power of Convergence Series is Zbob getting you up to speed, helping you maximize your full potential, getting you to operate at your pick performance, helping you understand your calling, what you are anointed to do, what you are good at; getting you together with other believers. This is Zbob bringing you the tool that will teach you how to defer your ego to God so that He can help you achieve success in your assignment. This is a three parts series, the second part will help you understand the dynamics that shape human existence. All three parts of the Power of Convergence Series are based on observation, intuition and revelation.

What is a state convergence?

■ *Convergence is you operating at your pick performance in what God calls you to do; what you are best at.* A state of Convergence is really when your gifts and passion are merged together in achieving a goal, an objective. It is really when God is working with you and through you, using your gifts and talents, through the passion He puts in your heart to take the world back from the system that has separated you from Him. It is you operating in your gift and passion at the same time, making you able to operate at pick efficiency at all times. If you have a calling in your life to make an impact; you ought to feel it. We want to help you; we want you to take the steps that will get you into a state of convergence. You will want to find out what is your sphere and what you can be preeminent in and what is your talent, what is your unique factor, *let you explore your passion and create the*

intersection where your gifting is and your passion meet; this is what convergence is.

The purpose of convergence

■ You must say to yourself that I want to walk in the unfolding plan of God; that is the purpose of Convergence. The greatest thing that can happen to you in life, the greatest source of empowerment you can have is when you discover your position in the prophetic, in the unfolding plan of God. This will be your unique factor, what you are anointed to do. You are getting acquainted with your anointing, and the awareness of what you are here on earth for from the greater perspective.

Why you need to be in convergence?

■ Convergence makes it possible for us to engage the world in conversation to influence the world for God. Changing the collective, changing a country like Haiti or any other country in the world, you need power. Only God can change the collective. You are wrestling with the spirit that is occupying the territory that you are about to access and dispossess. The enemy sees your future capacity and will try to stop you. He will stop you to test to see if you are qualified to occupy your position.

What we really, really want

■ What we really, really want is to prepare people, get them into a state of convergence so that they can maximize their potentials and work effectively with God. God is redeeming humanity, bringing people that are lagging behind, those that are left behind into His blessing. He needs people to work with Him, we are preparing and teaching people how to let go and let God, not letting their egos get in the way. We want to teach them to accept the fact that it is God through them that is doing the work; on their own they can never succeed.

We are helping people understand that they cannot do this work on their own, no matter how capable they feel they are; they need the power of God to help them take possession of the place they want to occupy. They will be tested to determine rather they are qualified to occupy the level they are about to step into. They cannot fight on their own, they need power to dislodge the strongman who is occupying the sphere they are about to take possession.

- You need power to fight power, you need the power of God and each other; there is no way around it. It is not simple as it appears; your intellect is not sufficient. God's intention is to bless the whole of humanity; whatever it is that is restraining the Third World, keeping people from moving forward, whatever it is that keeps them in poverty, stagnation and retardation, we want to make people aware that only a move of God can change.

God wants to raise champions

- *“Who takes possession of a house without first binds the strongman who occupies the house?” Jesus said.* You can only do that if you are qualified. You must first be processed; the opposition is watching to see if you are skipping. Sneaking your way in. The devil wants to make sure that you pay your price for admission. What the opposition does not know is that God has been working with you, getting you ready to take the quantum leap of faith to be where He wants you to be. You are getting ready to get into the fullness of what God has for you; it is time for convergence. We are facilitating people to move into their spheres of influence. People who are anointed to fix situations so that the glory of the Lord may be revealed.

Creating the Core

- We want to form a company of people; we want them to know their strength and their weaknesses, their spheres of influence and their constraints. We want to help them avoid the pitfalls so that they can complete their assignments. Whatever that is keeping them from optimizing their anointed potentials; we want to help

them identify and dealt with. We want to turn them into a body of believers that will become the shaft that will drive them to make the greater impact in their assignments.

Convincing the People

• You need to impact the world, you need to influence people, and you need to convince them that your message is worth buying into. Guilt is no longer going to be able to persuade someone that the message that you carry is worth buying into. People are going to contest your ability, your right to speak. You need to be able to cast down reasoning and speculation by the message you preach. You need power to overthrow territories in the spirit and enlarge your sphere where principalities and powers have dominion over the mind of people. You need to defend your authority to preach in the presence of people who are challenging your authority, your identity of who you are and what you do. You may boast of what you are capable to do when you know your calling, your metron, and your measure of rule.

Our Message

• *“He will do it by the power that works in us”* whatever it is that we need in order to get us up to speed, to help us vibrate at the level where we need prosper and excel; like having the power to get wealth, to be supernaturally prosper is our message, offering people the living Jesus as the power that will do it. The same power that raised Jesus from the dead is the same power that is working in us to prosper us and excel us forward. You need to know what it is means to be light and salt in a culture like Haiti that does not really sees a need for God or God as the solution for their problems. The emphasis in the Haitian culture is on spiritual things, the demi-gods, having the power to bend the laws of nature and that the message that we have of a living Jesus that can fix things does not seems to carry an impact.

Driving Home the Message

•The idea that the power to get wealth is working within us, that the abundance we seek will happen by the power of Christ that works within us does not carry any weight in the Haitian culture. God is inviting us to consider that we carry a living Jesus inside of us by which the blessing of God will be appropriated to us. The message that we carry that the blessing of God will come to the Third World through Christ does not seem to carry any weight because of the many voices that are gone out of the earth. In some way the church has lost its ability to be an influential force in the culture when it comes to overcome stagnation and bring prosperity. While we are not in the world to love the world, we ought to influence the culture and that requires for us to engage the country in conversation.

Why you Need a Company?

•You cannot stand alone; you need a company, believers like you who know that they are anointed by God to do what they do. All of us have triggering mechanisms, constraints that we are not fully aware of. They happened below our conscious mind. They are triggering mechanisms that come alive when we are under pressure, the tendencies we have when we are under pressure. The enemy will use them against us. We need a company of believers to help us cope with them. When you are in company; you have a greater chance to cope with these weaknesses. You need to develop the relational discernment of company so that when you are in warfare; when those constraints come to do away with you, you can find strength in the company of believers.

Where you receive your Authority

■All of us have a metron or measure of rule and we must know that within this measure of rule that has been given to us whereby when we speak all of heaven authority will back us up. Heaven will back you up with power that changes societies, regions and individuals all of the way from inside to the outside. That is the power of the gospel. You cannot move in that realm of power unless you know your measure of rule. You must know what has been given to you.

Your credibility

■While no body was looking, God was making you, forming you and shaping you. There are enemies that will contest your right to say and be what God calls you to say and be. For years you get your processing, and then God has made you public. When He made you public the sign of a sent one will accompany your ministry with sign and wonder.

Extending your Sphere

■When you finish conquering enemies in your sphere, heaven will back you up, giving weight to your words. You may extend your sphere by conquering the sphere of another that you never been in before. To do that it requires partnership with everyone else in that sphere. Everyone who has a calling, a work to do, have an assigned sphere; God is at work in you to help you take territories so that He can go to work through you , through the sphere of your assignment. Every assignment has a sphere to go with it. When you engage t he work that you are called to do is what convergence is. Convergence is doing what you are the most gifted at, call for and equip to do in the area that God is inviting you to join Him to do. The work that you are given helps glorifies God.

What is it all about?

- It is about glorifying God on the earth.
- Our poverty, our Third World mentality does not glorifies God. God does not want a Third World that doesn't glorifies Him; He wants to bless the whole of humanity. We want to get together a core of people who believe in God and the ability that He gives them to affect changes in this world.

A Point of Despair

- We can hear people say that nothing is going to change what is going on in Haiti; things are hopeless. We say to them have a little faith in God. All we have to do is go back in history and realize that there are times in history which were worst than this and the reverse happened. God was able to shift the situation.

Obstacles in our Path

- Two things are standing in the way of people from taking action; they are money and hopelessness. People always ask us these two questions: "Where am I going to get the money; and how I can change what already is, the status quo?"

What the world is saying

- People are concerned about two things, money and their power to affect changes. Both seem to bring a feeling of hopelessness. What people don't know is that they are both the same. The moment that we are affecting things to change, we are exponentially increase our ability to create wealth, to supernaturally manifest resources we don't have.

Things that God has changed

- Slavery, apartheid, Jim Crow law,
- There are countless more examples of things that we didn't think were possible to overcome and now they are no more.
- Third World Mentality is no exception. If God trough people can change the past, He can help us rebuild Haiti and change the

mentality that is responsible for the state of stagnation and poverty in Haiti.

Assessing the Past

■Assessing the past in order to affect the present; let us look back at our history; what was and what now is. The impossibilities of the past become realities of today. Blacks were not allowed to be realtors, it was a white only profession; blacks could not vote in America less than be president; even worst blacks were considered properties of whites, not human beings. As we assess the past we can find the courage to embrace the future. The future is ours to make.

What is the Future?

■By God grace we will change Haiti and beyond. We will set precedence for other Third World Countries to follow. This we can do if we get into convergence and come together as a unit.

Doing it with God

■God is not going to do it alone; He is waiting on us to take our stand. He already empowered us to do it; the rest is up to us.

■The church is not the only place where God can pick people to change the world; the majority of the people God will use are in the market place. Eighty five percent of the battle for the earth is done in the market place.

■Don't count yourself out.

What it takes

■Culture isn't shape by the majority, but by the minority whose world view prevails at the highest places of mountain, <[Spheres of influence](#)>

■Let see what God can do with a remnant of people that still have faith in Him.

- Let us get together to create a sphere overlap in order to increase our strength to advance our agenda.

Coming Together

- Let us create a company of people, a fellowship of like minded people together. We will have teachers, Artists, politicians, media people, scientists, etc., people from every aspect of human existence.

What This Means

- It means that we are creating dialogue in order to enter into the truth. How do we get into the truth? All of us at one point need to have an ongoing dialogue with somebody that God put in our lives to supply us with the revelation of what He is saying now.

- This is the key to dialogue

Discover Your Calling

Join the power; whatever you hunger for, whatever you appetite for, something human is going to have to subordinate itself to something divine. The real test for you is to take the hunger you have and the desire you have and learn to bring it under the alignment with what God wants so that the Father's will can prevail.

The Purpose for the Test

- Learning to submit to the will of God is the real test of life; learning to see rather it is what God wants and yield to His will. The purpose of the test is to test you to see rather that God is given you the green light or the red light to go on or not to go. There will be moments of frustration when you want to go and God wants you to stay put. This will be your test. God does not want you to suffer, or deny you.

Know your Sphere

- Every one is anointed for a different assignment. The first thing we need to do is to help you find your niche; what you are good at. Everyone is anointed to fix a different thing in this world. You must find what you are anointed to do; what is your assignment.

Say it like Jesus said it

■ *“The spirit of the Lord is upon me because He has anointed me to fix the situation uncensored”*. There are people that are anointed to fix businesses, economy, government, etc. A time will come when the government of this world will come under the authority of those who have the authority on those spheres.

Be Gracious to yourself

■ We need to have the grace to enter into our assignment and know that we are anointed to fix this without ego, without presumption. You must know that God has anointed you with that ability to fix this.

How can we help you?

■ How can we help you recognize your sphere of influence? Out of the seven mountains or spheres of influence which one is your assignment? Not everyone can teach, be a businessman; how can we help you recognize your genuine calling. The seven spheres are nothing but mind molders.

Battle of ideas

■ The battle of nations is battle of ideals; what is the best system to take care of people. Whose ideal is going to prevail in the battle for ideals? We are liberating spheres according to the truth that God design. When you are operating in your area of assignment you have genius capacity.

You have the Power

■ When you have the anointing for that assignment you have genius capacity to go where no one else has gone. You will find the mystery level, the layers of God’s quantum realm. In that field you will invent, you will initiate things in motion. You can create something out of nothing because you will have the power to bring things into manifestation.

The Power to Get Wealth

■ Money is the principal thing; the power to get wealth is literal as such God will give you the power to create something out of nothing. When you are in that zone, the gift of the spirit, the anointing of the spirit will work supernaturally. When you are in that zone no one can compete with you because the gift of the spirit, the supernatural will work cooperatively with you to make your sphere glorifies God.

Know your Sphere

■ The seven spheres that shape nations, which one are you assign to? You discern your sphere by the intuitive desire that you are drawn to manifest. Which means that what God has put in your heart to do is the key and the clue to the sphere that you are ultimately call to manifest your glory in.

What are the Spheres?

The Seven Spheres of Influence

- 7_ God: The Church, Religion
- 6_ Family Sphere, parents shaping children
- 5_ Education Sphere: Teaching children, shaping their mind
- 4_ Government Sphere: Write the law, the support system

- 3_ Media Sphere, spin machine, Talk show, Entertainment
- 2_ Art: Songs, things we laugh
- 1_ Business, Finance, Technology

Choose your Sphere

▪You don't need to worry about getting a trajectory base on all of the seven spheres. What you need is to ruthlessly clear on creating a walk with God where you learn to honor what is in your heart and bring it without fear before Him to help you.

How to Manifest Your Gift

▪People lack sensory acuity; the ability to take feed back from people to confirm what aspect of this gift you are the best at. Passionate desire tells you where you want to go. Honor the passion that is in your heart and hold it without ego attachment to the feed back that you get from others. It requires that you stop passing judgment; hold it without judgment or censorship.

Don't be hard on yourself

▪Do not devalue yourself or overblown yourself. We need to impact every aspect of society. You are anointed to deal with one aspect, together we tackle all aspects. You cannot be afraid to challenge the status quo. There are those that are anti-God, they will oppose you anyway.

Next Steps

▪Getting together in dialogue is the fundamental obstacle of the Third World. People cannot come together as a unit, there is no oneness. They are individuals not a collective. We explain the key to dialogue earlier; you need to enter into the truth in order to have dialogue. How do you get to all truth? We also explained that you are going to have an ongoing dialogue with somebody that God put

in your life. He will tell you what God is saying now. Contact us, info below

What is my Goal?

■ Our goal is to get together a core of believers, people who have the authority over the different spheres of influence. We want to bring them together in a unit. We want them to impact every sphere in order to counteract whatever is wrong with our spheres of influence. Haiti as well as the other Third World Countries need to be quickened; something to help awake the people out of their slumber.

A Pattern for the Sons of Man

■ Jesus did not want to go to the cross, but He accepted His fate because that was God’s will. Without the cross there is no resurrection. It was Jesus’ fate to go to the cross and His destiny to save humanity. The Muslims reject the cross as a sign of weakness; this is their gravest mistake. Unless God’s will is done, there is no redemption. The cross is us embracing our humanity, the weaknesses and the shortcomings of our fellow human beings.

Take up your Cross

■ We all have our individual cross to bear. God does not always want us to suffer; denying us the pleasures of life, but there is no beauty in the universe without sacrifice. Self sacrifice is the way of things. Sometimes we must deny ourselves for the benefit of the

greater good or life will not be a rose. The thorns are the imperfections that we must remove by our sacrifices, self sacrifice.

Misconception of the Cross

•The Cross is not always a denial. God denied Jesus His request not to go to the cross because the cross was a necessary part of God's plan. He was Jesus' choice to reject God, but He knew that the Father knows best. God had given Him before hand the insurance that He will raise Him up again. *“I lay down my life and I have the power to take it back again. This command I have received fro the Father”*. God gives us nothing which we cannot endure; Jesus was capable of rejecting the cross, but He chose to do God's will.

Invitation to Leadership

God is inviting us to be an influence in the world

Making an Impact

•You cannot impact the culture if you are not willing to learn from the culture and understand the culture. We need to influence the culture for the glory of God especially if the culture does not see a need for God. There is enough emphasis on spiritual beliefs other than God in the Haitian culture that the church has lost its ability to be an influential force in the culture. The idea of the power of Christ for our salvation does not have an impact in the Haitian culture. In fact blame has been placed for the poverty, stagnation

and retardation we see in Haiti because of the gospel. The minds of the Haitian people have been poised by those who want to silence the gospel of salvation

.We don't need to beat them up trying to convince them that the message we carry is worth buying into. By the message we preach, we will cast down reasoning and speculation, expanding our sphere to influence the culture.

Engaging the World

■In order to influence the world for God's glory it requires that we engage the world in conversation. What is it in the Haitian culture that is so engrained that changing it seems insurmountable people seeks the spirit, the demonstration of power. I think that is the first thing that influences the culture. Our ministry must be accompanied by sign of wonder before we can influence the culture. Without some demonstration of power, it will be hard to speak with authority to the people, change their minds, their reasoning.

Spheres of influence:

■Defending our apostolic sphere for the work we do
■By the message we preach we cast down reasoning and speculations and by that we overthrow territories in the spirit and enlarge our apostolic sphere where principalities and powers once have dominion over the minds of people.

Defending what we do

■We are defending our apostolic anointing and call in the presence of people who are challenging who we are and our authority to do what we do.
■You can explain to people what your apostolic sphere is without boasting your ego

■Don't boast beyond your measure, your metron or measure of rule. Within the measure of the sphere or measure of rule that you have been given whereby when you speak all of heaven authority backs you up, and back you up with power that changes society, regions and individuals all the way from the inside to outside. You cannot move in that realm of power unless you know your measure of rule.

Know your measure of rule

■The enemy never deals with us base on where we are. Because of the perspective and the position of the enemy in the heavenly he has some sense of were we are going.

■God shows you your future base on your battles, your challenge, what you have to face in life.

Activating our weaponry

.dealing with the forces of darkness

.You must know how your enemy strategizes before you get to the battlefield; you must be groomed to face the enemy in every way he comes. You are not dealing with what is, you are dealing with an enemy who sees your future capacity. You are not really dealing with what is. Your battle now is not about now but about where you are going. Your battle now is not about now but it is about the next phase of the unfolding purpose of the plan of God for your life. You are encountering the opposition that occupies the next level. Jesus going to the wilderness transition is the template for us, the model that we all must go trough if we are going to conquer territories. He was engaging the power that occupies the next level. You are engaging the power that occupies the sphere that you are about to dispossess.

Know thy self:

.and with all thy getting get understanding and love

.Know your measure of rule, what has been given to you; your sphere of authority, your metron. Even thou no one knows who you are, long before you start talking about what you know or do, you must know what has been given to you. While no one was looking, God was making you, forming you and gives you a sphere and calls you to do what you do. You must get your processing before you are made public. You must conquer the enemies in your sphere before you get sent out. You must test and vent what you know and will talk about before you start talking about them. There will be enemies that will contest your right to say and be

what God tells you to say and be. When you have been successfully processed and when God made you public the sign of a truly sent one will accompany your ministry. You will speak with authority and the utterances coming out your mouth will be that of God. If you are going to move into your sphere and develop as a leader, you must develop your sphere as God intend you. You must conquer your enemies inside and out. You will not be released until you conquer all your enemies in your sphere. The only way you are going to have influence in your sphere if for you to silence your enemies.

Part II: The Flip Side

Know thy self

- Know thy self and with all thy getting, get understanding and love.
- Now that you know your strength, you also need to know your weaknesses. “*It is the little foxes that spoil the vine*”. Jesus said. It is the small things that stand in the way. Whatever you intent to do; you must know that you cannot do it alone and you cannot do it without God. Stop isolating yourself from very body thinking that you are alone. You need the company of other believers to support you. This is the problem of every leader, when the going get tough, they hide inside themselves and push everybody away.

What we are doing?

- If there is going to a fundamental change in the Third World, or in Haiti; it will happen only by God and the people He chooses to work with Him. We are preparing people, bringing them into convergence, helping them work in company; this is what they need.
- God wants to bless the whole of humanity, including those that are lagging behind, left behind out of the attainment of this world in a state of stagnation.
- We are using this series to help you get into convergence; the first part was about your strength and this part is about your weaknesses. We want to tell you that constraints are put there by

God to keep you inline with the spirit. Let us explain what they are.

It is the constraints that keep us from losing our anointing.

Constraints, what are they?

• Constraints are guards that God put in our lives to keep us from losing the gain we made in our spiritual journey. They are safeguards against leakage so that in time of stress we don't bleed and let escape the spiritual gain we made. *They are the lines and the boundaries that God places in our lives to guide our spirit.* How well we can walk the lines between the impulses coming from our bodies or the pressure from the outside world and the constraints that God places in our lives to keep us from succumbing will determine our spiritual strength. All of us have our breaking point that will trigger an escaping response. These escaping responses are those weird things that we do when we are under pressure; they are those idiosyncrasies that we see in people, those unusual and weird behaviors we display. A triggering response for a man of God is for him to go in within, deep within himself, a desire to isolate himself from everybody. (Going back to the source, the cave, and the womb for comfort) how well you walk the line between the flesh and the spirit will determine how impeccable your soul is; how close to the spirit you are.

All of us have constraints

• There are things that you can do that we cannot do because of the lines and the boundaries placed around us. We cannot do what other people do just because we want to, we cannot cross the lines and the boundaries that define our existence if that will cause us to step out of our anointing. Jesus said that He always does the things that please the Father. His life is a pattern for the sons of man.

Why we warring?

• There are two things at war in our lives; it is the flesh that has aligned itself with the devil and the spirit that is holy and perfect and under God. The battle is for your soul; the middle ground where spirit and flesh meet. It should be all under God; but there is

a miss-alignment. Somehow the flesh is no longer under God; that is the reason why we die and must die. This struggle between the flesh and the spirit will last until the day we die. Jesus at death transmuted his physical body into higher stuff; aligned the flesh with the spirit and become one; that is the resurrection. The body is no longer under Satan's power but the spirit; a perfect re-unification as God intended.

Moments of weaknesses

•The idiosyncrasies we displayed are moments of weaknesses, escaping responses, coping mechanisms, the way we respond under pressure. They are what keep us inline so that we don't succumb to the guises of the devil, the impulses of the flesh, the pressure of the outside world. They are the patterns of inequities that pop up when we are at wit end, at our limit. The enemy uses them to limit us. So it is not God or circumstance, it is the impact of weaknesses that have not been identified and dealt with. So that our tendency for isolation under pressure that can be exploited by the enemy to work against

How to fight against those idiosyncrasies?

•You need to return to your company where you get appreciation in an atmosphere of affirmation for each other. As a leader you need to return to your company. All of us who are anointed by God to do this work are leaders in our own right. We really can do more together than we ca do apart. Like the disciples after the ascension of Jesus to heaven need the company of each other to get strength. It is the twelve that provided the shaft that allow greater penetration of the gospel. When we find our body and not standing alone, we become a powerful force. Since every one is a leader in his own right, we need to defer our ego in order to be a body, not letting our ego get in the way.

Going through the Process

■ You cannot access that realm that is responsible for your influence until you learn to put your ego aside. To be in the assignment that God call you to be is a challenge. Each level of process releases you to a greater metron of authority, a greater capacity to shape the environment you assign to; so that at some point you become the utterance of God in the situation.

You will be tested

■ There is an awareness in mid heaven of your assignment and if there is this awareness, know then that the enemy is not interested in your present position, but the sphere that you are about to occupy. The challenge or test is not about where you are, but where you are going to invade (be) you are not wrestling with your present circumstance; you are wrestling with the strong man who occupies the sphere you are about to take possession. Jesus was tested by the devil. While He was in His way to His future something interrupts His journey in order to test if He is really qualifies to occupy the level He is about to step into.

Questions

■ There is awareness in mid heaven about our assignment, this is a fact or else how do we get tested before we enter into a new level. If there is an awareness in mid heaven about our assignment what is the wisest way we can approach engaging the power that be in a way that can give us the victory like Paul had. We must adjust our perception that we are not having a dialogue with our circumstance; we are having a dialogue with a demon.

■ We need to engage the culture. Our incompetence of engaging robs us of the harvest we seek. If you cannot do things for yourself, you will have to do with what they give you or what you don't want.

After the Battle

▪When you finally come out of a successful process of testing that is trying to disqualify you from the next level; when you finally succeed in the metamorphosis that God intended, you have sphere authority on an intuitive level that everything in the atmosphere respond to.

Temptation

▪Until you are deliver from everything that would attract you in those you are sent to; you are not ready to be a voice to change the culture.

▪Whatever you bow down the knee to on your way up to the mountain controls you when you get there to the top. Whatever your sphere of assignment, you are going to be tested. Temptation of bowing the knee in order to have power; power is the greatest enemy that is keeping you from accessing the power of God.

▪You cannot access the realm that is responsible for your influence until you learn to put your ego aside. To be in the assignment that God calls you to be is the challenge.

Ascending to the Top

▪Each level of process releases you to a greater metron of authority, a greater capacity to shape the environment you assign to so that at some point you become the utterance of God in the situation. Your authority must be complete within your sphere.

▪Sphere of rule, Measure of rule

▪The seven ideological areas of spheres or mountains that influence society

▪Our measure of rule makes us salt of the earth, light of the world.

▪Sphere of influence, Specific assignment

▪We are facilitating people to move into their spheres

We are anointed to fix situations so that the glory of the Lord may be revealed. World rulers are put there by God's hands face with problems they cannot solve until you show up. God does not get the glory if they fix situation, but when He fix it through you, He gets the glory.

Note: About the authors

[Dr. Lane Wallnau](#) is a dynamic teacher with a unique and powerful gift for imparting the Word of God. He shares his lifetime research in the field of organizational and personal transformation. Fathering, mentoring and facilitating others to engage the work of God so that the glory of God can be manifested in the earth

[Dr. Mark Chironna](#) is an expert in personal mastery and life balance. Together he and Dr. Wallnau introduced “[The Power of Convergence](#)” as a tool to help people maximize their full potential, getting people to operate at peak performance, helping them understand their calling, what they are anointed to do. Dr. Chironna believes in engaging the world in conversation

Jean "Robert" Noel through his website is teaching people about their possibilities in Christ, helping them understand the forces that shape human existence, the forces that restrain and keep humanity backward and the forces that propel and excel humanity forward; the forces responsible for social stagnation and spiritual retardation, the true causes for racial prejudices and discrimination in the world. His website is about know knowledge, revealing truths that were hidden from us, exposing the works of darkness, making ways for God's truth to take roots in our heart.

Zbob is our sidekick, an assistant to the website, a helpful guide to illustrate concepts and ideas...
